In addition to engaging with library administration, engaging with University administration

I am very reluctant to re-invent wheels. People are doing an amazing amount of work already. (Stuff that ALA's OIF should have been doing, IMO.) What can we do to signal boost efforts like Santa Cruz's data privacy page https://www.santacruzpl.org/data_privacy/ and Cornell's Privacy Services <https://www.library.cornell.edu/services/privacy>
